

Last information update: February 2025

**Product configuration: RD10.83**

RD10.83: 3-cell recessed luminaire - General Lighting - Transparent/Black

**Product code**

RD10.83: 3-cell recessed luminaire - General Lighting - Transparent/Black

**Technical description**

Recessed luminaire consisting of a lamp device and a 3-cell emission raster - model with operating components to be ordered separately. Version for high emission general lighting. LED lamps with high color rendering index. Main body made of extruded aluminium - anodised finish - cast zamak end caps - natural finish. Polycarbonate LED lamp support. Steel wire fixing springs. The optical system consists of a translucent textured methacrylate raster, created with a catadioptric system (patented Opti Beam Diamond optic) - with no galvanic treatments - combined with a gloss finish PET cover. The raster includes multiple lens diaphragms for LED lamps. The result generates a high performance light emission combined with a high energy yield. The accessory wiring components also include the use of several recessed luminaires with a single power supply unit.

**Installation**

recessed with steel wire contrast springs; slot to make in false ceiling: 63 x 183

**Colour**

Black Transparent (83)

**Weight (Kg)**

0.4

**Mounting**

ceiling recessed

**Wiring**

Drivers and wiring components are available with a separate item code. This system allows several recessed luminaires to be used (2 / 3 max) with a single power supply unit. The product can also be connected to centralised emergency systems in compliance with the EN60598-2-22 standard. For more detailed information, see the instruction sheet.

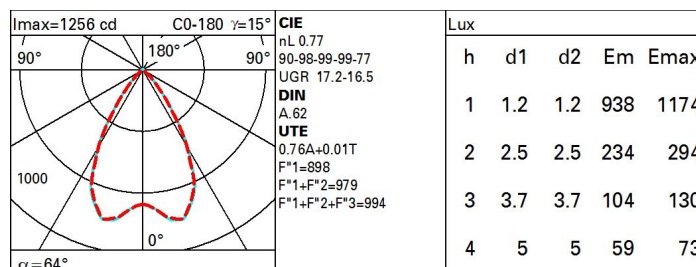

**Notes**

Possibility of multiple uses through the use of splitters (mandatory) and connection extensions to be ordered separately. TPa version available on request, contact iGuzzini for more info

Complies with EN60598-1 and pertinent regulations

**Technical data**

lm system:	1363	CRI (minimum):	90
W system:	11	Colour temperature [K]:	3000
lm source:	1770	MacAdam Step:	3
W source:	11	Life Time LED 1:	> 50,000h - L85 - B10 (Ta 25°C)
Luminous efficiency (lm/W, real value):	123.9	Lamp code:	LED
lm in emergency mode:	-	Number of lamps for optical assembly:	1
Total light flux at or above an angle of 90° [Lm]:	16	ZVEI Code:	LED
Light Output Ratio (L.O.R.) [%]:	77	Number of optical assemblies:	1
