Accessory code

XA82: DALI-PWM Interface for PWM Filorail Luminaires – for 480 W Power Supply

Technical description

DALI-PWM interface for dimming. Usable with a specific 48 V, 480 W power supply (item X405). The interface features 1 PWM output channel and 1 DALI address/load for simultaneous control of all devices connected to the corresponding rail section. Refer to the lighting device's instruction sheet for pairing methods with power supplies

Installation

The interface can be placed on a dropped ceiling and/or inside dedicated electrical boxes. Supplied with 2 slotted mounting holes for screw fixation.

Colour

Indeterminate (00)

Wiring

Accepts cables from 0.5 to 2.5 mm² Connections via dedicated terminal blocks with cable clamps/terminal covers

Notes

Refer to the lighting fixture's instruction sheet for compatible power supplies and PWM luminaires.

Complies with EN60598-1 and pertinent regulations

IP20

Technical data

Control: DALI-2
