MI44: LON DALI controller DR-S 16DIM

Technical description

Control and powering of a maximum of 64 DALI devices, split into sixteen groups. Addressing of DALI devices with LNS plug-in Provides power supply voltage: DALI, 16V. Monitoring of status of all connected DALI devices Monitoring of all lamps (DALI compatible). Diagnostics and status indicator LEDs. Manual operation for direct control of DALI devices. DALI device substitution with manual operations. Wire clamp screw terminals. Power supply voltage: 230V ac. Software application for controlling a maximum of 64 DALI devices, split into four groups, including timers, priority control and configurable behaviour in the event of voltage failure/recovery or bus reset. Application also allows constant control of the lighting and the scenes according to the LonMark "Lamp actuator (3040)" profile, "Constant Light Controller (3050)" and scene control in DALI devices.

Colour

Indeterminate (00)

Complies with EN60598-1 and pertinent regulations
