Accessory code

MY07: Power supply dimm. 0/1-10V IP20 20W - Vin 220-240Vac 50/60Hz

Technical description

0/1-10V dimmable electronic power supply 20 W max. For recessed Laser luminaires. Constant current output 150÷500 mA selectable with a DIP-SWITCH (200 mA). Accepts 0-10V and 1-10V type adjustment by analogue control systems or potentiometer. Product features include overvoltage protection, short circuit protection, overcurrent and over-temperature protection.

Installation

Compatible with the insertion drill-hole for recessed Laser luminaires. Fitted with slots for fastening with screws, if required.

Colour
Indeterminate (00)

Weight (Kg)
0.12

Dimension (mm) (*)
103.1x41x22

* The dimensions may change according to production requirements to ensure that performance levels and installation methods are observed.

Wiring

The power supply is fitted with a cable and rapid connector to make the connection to the casing easier. Input terminals for primary: cable section up to 1.0 mm². Cable clamp on primary and secondary.

Notes

SELV

Complies with EN60598-1 and pertinent regulations

Technical data

Current out [mA]: 200

Control: 0-10V
