Last information update: February 2023

Accessory code

MZ89: Base kit with suspension cable - for electronic versions and Bluetooth versions

Technical description

Assembly kit for pendant-mounted installation of Ø 59 mm lighting elements. Thermoplastic base with fixing plate. 2 pole power/suspension cable L 2000.

Installation

The support plate is installed and the base is attached to the ceiling. When the connections have been made the lighting body is clipped onto the contact bush by means of a bayonet coupling system.

Colour

White (01) | Black (04)

Weight (Kg)

0.18

Mounting

ceiling pendant

Wiring

The line cable is connected to the terminal board on the ceiling plate. The cable can be cut to the required length and is connected to the lighting body terminal board using the screw connections.

Complies with EN60598-1 and pertinent regulations
