iGuzzini  
NORTH AMERICA

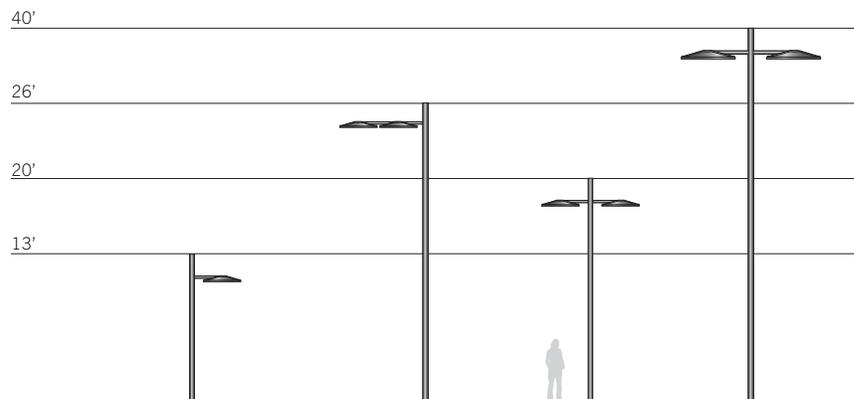

### Features

- Urban lighting system for area lighting and roadways
- High efficiency latest generation LED
- Pole or wall mount
- 2 body sizes with light output from 2150 lumens to 6210 lumens
- Die-cast aluminium body, stainless fasteners and factory sealed diffuser
- 5 patented OPTISMART optics (2 low glare optics with comfort glass)
- Unique SOFT DIFFUSE optic for pedestrian area
- High corrosion resistant finish
- Optional photocell and dimming
- Intelligent LED driver with step dimming via USB interface
- Full cutoff (BUG rating = U0)
- Warm White 3000K or Neutral White 4000K 70CRI
- OPTISMART in 70 CRI / SOFT in **2190 to 6340 lumens**
- LM80 tested LED
- L90 / 90,000 hours
- Operating temperature -40°C/+40°C
- UL listed
- Color Grey
- IP66

Please consult the **Website** for additional technical data.

**OPTISMART optic**

The UFO luminaires are equipped with a high efficiency optical system that delivers unparalleled performance. The patented optical modules are made of silver (Si) coated aluminum.

This innovative system delivers reflectance of 98%, with minimal lighting loss inside the luminaire, and guarantees performance longevity.

The optical design combined with the robust thermal management yields record system efficiency of **87 to 108 lumens/watts**.

IESNA optics type II, III, IV, enable efficient area and street lighting.

Comfort optic with reduced glare available for distribution II and III.

∅ 16-1/2"

**Smart Light Control**

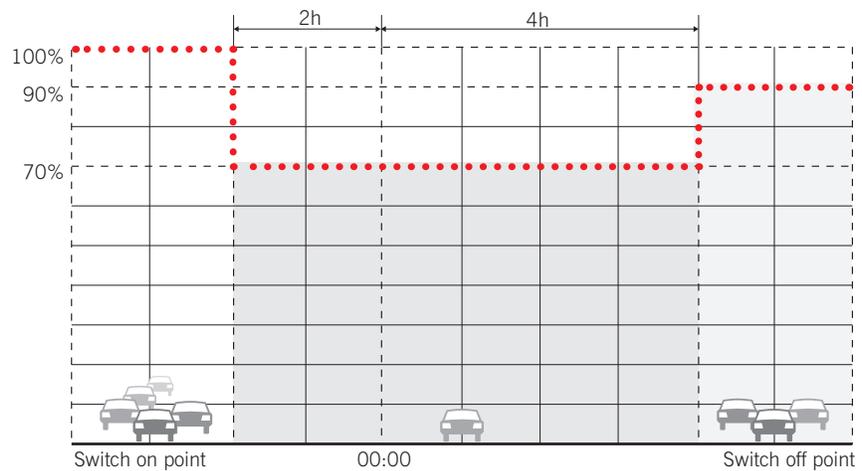

The power supply can be factory or site programmed via USB key. The internal calendar allows project specific settings to be achieved. By dimming the luminaire during the desired time slots, further energy saving can be attained. The step dimming can be set to 6 different time settings with dimming down to 20%.

**USB interface**

The light setting of any luminaire can be changed at any time by uploading new "light profiles" via USB key. This feature is extremely useful when changes in the surrounding environment require temporary or permanent modification of the luminaire output. Multiple profiles can be saved in a PC and uploaded whenever desired.

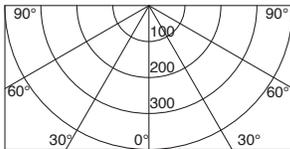

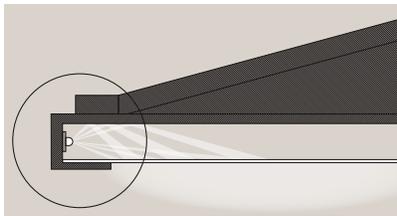

**Controls & dimming**

- Optional dawn to dusk photocell
- 0-10V and DALI dimming available on request

**SOFT optic**

This SOFT optic is designed for pedestrian areas where glare free diffuse illumination is desired. The entire opal diffuser is evenly back lit by the side mounted LED, producing a unique “floating” appearance. The optical design combined with the robust thermal management yields record system efficiency of **60 to 76 lumens/watts**. The LED light sources are not visible at any viewing angle.

**Smart Light Control**

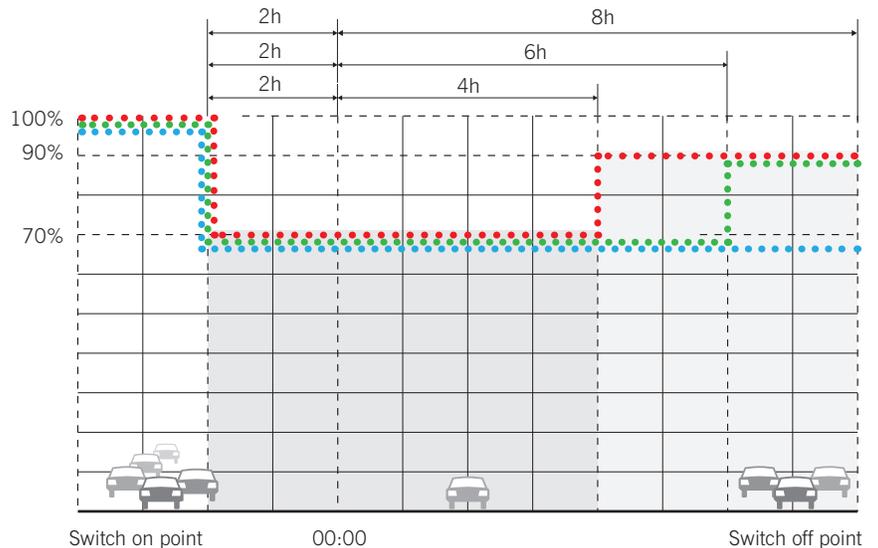

The power supply can be factory or site programmed via USB key. The internal calendar allows project specific settings to be achieved. By dimming the luminaire during the desired time slots, further energy saving can be attained. The step dimming can be set to 6 different time settings with dimming down to 20%.

**USB interface**

The light setting of any luminaire can be changed at any time by uploading new “light profiles” via USB key. This feature is extremely useful when changes in the surrounding environment require temporary or permanent modification of the luminaire output. Multiple profiles can be saved in a PC and uploaded whenever desired.

**Controls & dimming**

- Optional dawn to dusk photocell
- 0-10V and DALI dimming available on request

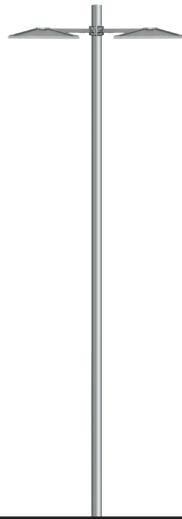

**System composition**

Mounting arms and brackets are designed to be used with 4" and 4-1/2" diameter poles.

	<b>I.BL16</b>	IES III C *	4080	44	4760	53	5420	62

\* Comfort glass

**SOFT OPTIC Small LED**

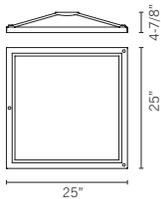

Use 4" diameter pole with the Small LED

	Code	Optic	BO (350mA)		HO (450mA)		VHO (525mA)	
			Lm	W	Lm	W	Lm	W
Neutral White 4000K <b>LED</b> 80 CRI	<b>I.BL03</b>	IES V **	2400	36	---	---	---	---
Warm White 3000K <b>LED</b> 80 CRI	<b>I.BL02</b>	IES V **	2190	36	---	---	---	---

\*\* Diffuse

**SOFT OPTIC Large LED**

Use 4" or 4-1/2" diameter pole with the Large LED

	Code	Optic	BO (350mA)		HO (450mA)		VHO (525mA)	
			Lm	W	Lm	W	Lm	W
Neutral White 4000K <b>LED</b> 80 CRI	<b>I.BL19</b>	IES V **	4300	56.5	---	---	---	---
Warm White 3000K <b>LED</b> 80 CRI	<b>I.BL18</b>	IES V **	3920	56.5	---	---	---	---

\*\* Diffuse

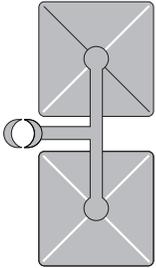

**Mounting options**

code **W** code

Wall-mount (for small version only)

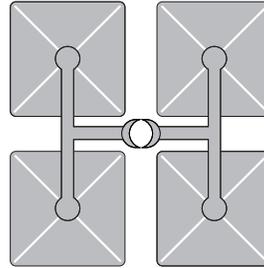

Transversal 11-3/4"

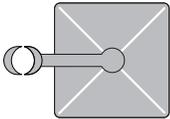

**T1**

Double transversal 2 x 11-3/4"

**T2**

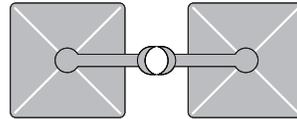

Horizontal one 35-1/2"

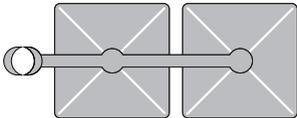

**A1**

Double horizontal one 2 x 35-1/2"

**A2**

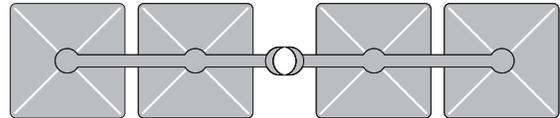

Horizontal two 59"

**B1**

Double horizontal two 2 x 59"

**B2**
