**Product code**

X959: Junction box for Organic Response sensor

---

**Technical description**

Accessory junction box for connecting the Organic Response sensor code X680, the DALI power supply unit code X684 and the DALI luminaire. The Box is fitted with no. 5 rapid 3-way junction connectors.

---

**Installation**

The junction box can be positioned above the false ceiling or placed inside an electrical compartment. The box can also be passed through the hole for the recessed housing of the Organic Response sensor code X680 when it is recess-mounted. Minimum diameter for passage: 50 mm. Dimensions 95x39x29 mm.

---

**Colour**

Indeterminate (00)

**Weight (Kg)**

0.02

---

**Wiring**

The box allows cables DA - DA and L - N - Pe (pass-through wire for eventual class I luminaire) to be connected in parallel. To comply with standards and ensure the tear-proof function works, multi-core cables must be used (single-wire cables cannot be used to enter/exit the box).

---

Complies with EN60598-1 and pertinent regulations

---

**IP20**
