**Accessory code**

PT85: DALI-PWM interface for Filorail PWM luminaires - for 60-150-240 W

**Technical description**

DALI-PWM interface for dimming.

Can be used with specific 48 V power supplies up to 240 W (art. 777D 778D 779D).

The interface has 1 PWM output channel and 1 DALI address/load for simultaneously control all the luminaires inserted in the track section connected (broadcast).

Consult the luminaire instruction sheet for methods regarding connections with power supply units.

**Installation**

The interface can be positioned on a false ceiling and/or inside an electrical box.

2 fastening slots for screws are available.

**Colour**

Indeterminate (00)

**Weight (Kg)**

0.09

**Wiring**

Accepts 0.5 ÷ 2.5 mm<sup>2</sup> cables.

Connections on appropriate terminal blocks fitted with cable clamps/terminal covers.

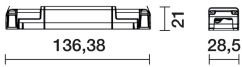

**Notes**

Consult the luminaire instruction sheet for power supply units and PWM compatible luminaires.

Complies with EN60598-1 and pertinent regulations

IP20

**Technical data**

Control: DALI-2
